Initial Contact Form

Date:	Patient's name:	Age: D.O.B.
Parent's name:		Phone:
Email Address:		Grade: 3rd
How did you hear of our office (Who referred you):		

DO YOU TAKE MY INSURANCE? I will be happy to talk with you about that but insurance coverage depends on the type of vision evaluation your child may need. Would it be alright with you if I asked you some questions first?

DOCTOR Referral

What did the doctor say as to why referring? ☐ Amblyopia ☐ Cross Eye (Strabismus) ☐ Convergence Insufficiency.

- Do you or your child wear glasses or contacts? ☐ Yes ☐ No
- Was a new RX given? ☐ Yes ☐ No

Notes:

NOT A DOCTOR Referral

Have you noticed you/child having any problems with school, avoiding homework or reading beyond what you would normally expect for a child his/her age?

☐ Suddenly not doing well in school	☐ Losing place when reading	☐ Tired when reading	☐ Covers one eye
☐ Blurry vision	☐ Turned or lazy eye (Amblyopia)	☐ Headaches	
☐ Holding reading material close	☐ Excessive blinking	☐ ADHD	
☐ Long standing academic problems	☐ Reversals	☐ Bumping into things	
☐ Head trauma/injury	☐ Special needs: autistic,CP,downs	☐ Poor reading comprehension	

We hear that a lot. It's is common among our patients and we're able to help"

Notes:

INTRODUCE THE OFFICE: "Well, just to give you a background of our practice: We have two doctors here, Dr. Jenna McDermed and Dr. Chi Tran. They are both board certified developmental Optometrist's. They both specialize in the diagnosis and treatment of vision problems that interfere with reading and learning, as well as non-surgical treatment of eye turns and lazy eyes. Most importantly they do specialized testing that addresses many underlying vision disorders that are not tested for in basic eye exams. Essentially, other doctors and specialists send their patients to our doctors when they see an area of concern that would require this type of specialized testing.

Appointment Scheduling

99203 Young Child (0-4 years of age) or High Support Needs (age doesn't matter): Based on the information you've given me, you have called the right place. You need to schedule a comprehensive evaluation with Dr. McDermed/Dr. Chi. This is a one hour appointment with Dr. McDermed/Dr. Chi. The doctor will be evaluating the overall health of your/your child's eyes, how the eyes move, checking if there is a need for a new prescription, and most importantly covering the areas of concern that we have just discussed. The fee for this evaluation is $130, do you prefer morning or afternoon?

Exam Type: Low Functioning **Date:** **Time:**

OR ☐ **Waiting List**

FVDE/VDE – FVIP/VIP: Based on what you have told me, you have called the right place. You need to schedule a Developmental Vision Evaluation. During this appointment, the doctor will be evaluating all the underlying visual skills required for reading and learning which could cause the type of symptoms that you are observing. The evaluation is very in-depth and takes about **two hours** to complete. The first part of testing will be performed by a technician, and the second part will be performed by the doctor. The consultation is scheduled in a separate appointment a week after the testing is completed and the meeting is with you and all parents or grandparents to ensure all information is taken into account in designing your child's treatment plan. The fee for both appointments, including the report is $490.00.

The testing needs to be performed in the morning, because the doctor needs to see how your vision is functioning at that time day. Is there a particular day of the week that would be better for you? (Schedule the appointment.) The parent consultation takes about an hour to 1.5 hour. As I said, **it is important to understand that both/all parents need to be there for this appointment.** The doctor needs to ask both parents questions privately (not in front of your child). When is the best time for both you and your child's father to come in to speak with the doctor? (Schedule the consultation.)

Doctor: ◉ **Dr. McDermed** ○ **Dr. Chi**

Exam Type: VDE/FVDE **Date:** **Time:**

Parent Meeting: **Date:** **Time:**

☐ **Waiting List**

Closing the Phone Call:

It's important to remember that we have reserved 2 hours for the testing appointment, so it is important for you to arrive on time. There is some paperwork which will be needed prior to the appointment. It is 6 pages long, so if you don't have time to fill this in prior to the appointment you will need to come 15 minutes before your scheduled appointment so you can fill it out.
Which email address would you like me to send it to?_____

In order to reserve the 3 hours of time, which includes the two hours of evaluation & one hour doctor consultation, I need to take a non-refundable deposit of $50. If for some reason you need to cancel, as long as you reschedule, the deposit will be credited towards any services. What phone number would you like me to text the clickable invoice to?

Credit Card Type:	Credit Card Number:	Expiration Date:
Visa		

Cardholder's Name:	Cardholder's Zip Code (required)	Code on back of card:
(as shown on credit card)	(from credit card billing address)	

- **Thank you for all that information! You will receive two emails from us. One with your receipt and a second will include the paperwork we discussed & the address to our facility with some helpful tips to keep you from getting lost when you arrive ☺**
- **Before we go, do you have any other questions?**
- **Alright great!! So just to recap, your appointments are scheduled for: (recap appointment dates/times)**
- **We will email you the week before and call the day before your appointment to remind you. Other than that, I hope you have a great day and we will see you soon!!!**

IF CALLER ASKS:

Insurance: Our doctors are considered private pay or out-of-network providers for all insurances. All fees and payments are due at the time of service.

- Keep in mind that insurance companies vary on what they cover and what they don't; every plan is different. The initial evaluation *may* be covered if you have out-of-network benefits. We will provide you with a receipt so you may submit to your insurance company for reimbursement.
- We provide many different types of vision therapy, such as specialized eyeglasses, home exercises, or in-office programs. So the best thing to do is to schedule the evaluation and then the doctor can give you more details.

Financial Concerns about the Appointment: It's more important that you come in for the evaluation so the doctor can figure out the depth of the visual problem and discuss all treatment options with you.

Asking about Vision Therapy program: The length of the program and the fees really vary, depending on the depth of the visual problem. We provide many different types of vision therapy, such as specialized eyeglasses, home exercises, or in-office programs. The doctor will discuss all treatment options after the evaluation. IF THE PARENT IS NOT SATISFIED WITH THIS ANSWER AND REALLY WANTS THE COST FOR VT – the fee per session is $____, the length of the program depends on the actual vision problem. The best thing to do would be to schedule the evaluation so the doctor can figure out what is going on and determine your best treatment options. When is the best time for you to come in?

Refuses to give cc over the phone:

No problem. We can send you a digital invoice, and you can pay the invoice online. However, we can only hold the appointment for 24 hours, and we will have to release if you haven't been able to pay the deposit.

Doesn't want to pay by cc:

You are welcome to drop off payment. Generally, we can only hold a spot for 24 hours, but I understand you may not be able to get here that soon. When do you think you can drop it off?

No problem, I can hold the spot until then. Call me if there's any difficulties.
